

It isn't easy to make it financially today or
to keep balance in your life

Most people just want to earn enough, be proud of what they do, be secure, have quality of life,... and be able to make a difference

But for many... this is not the case!

-job security is hard to find

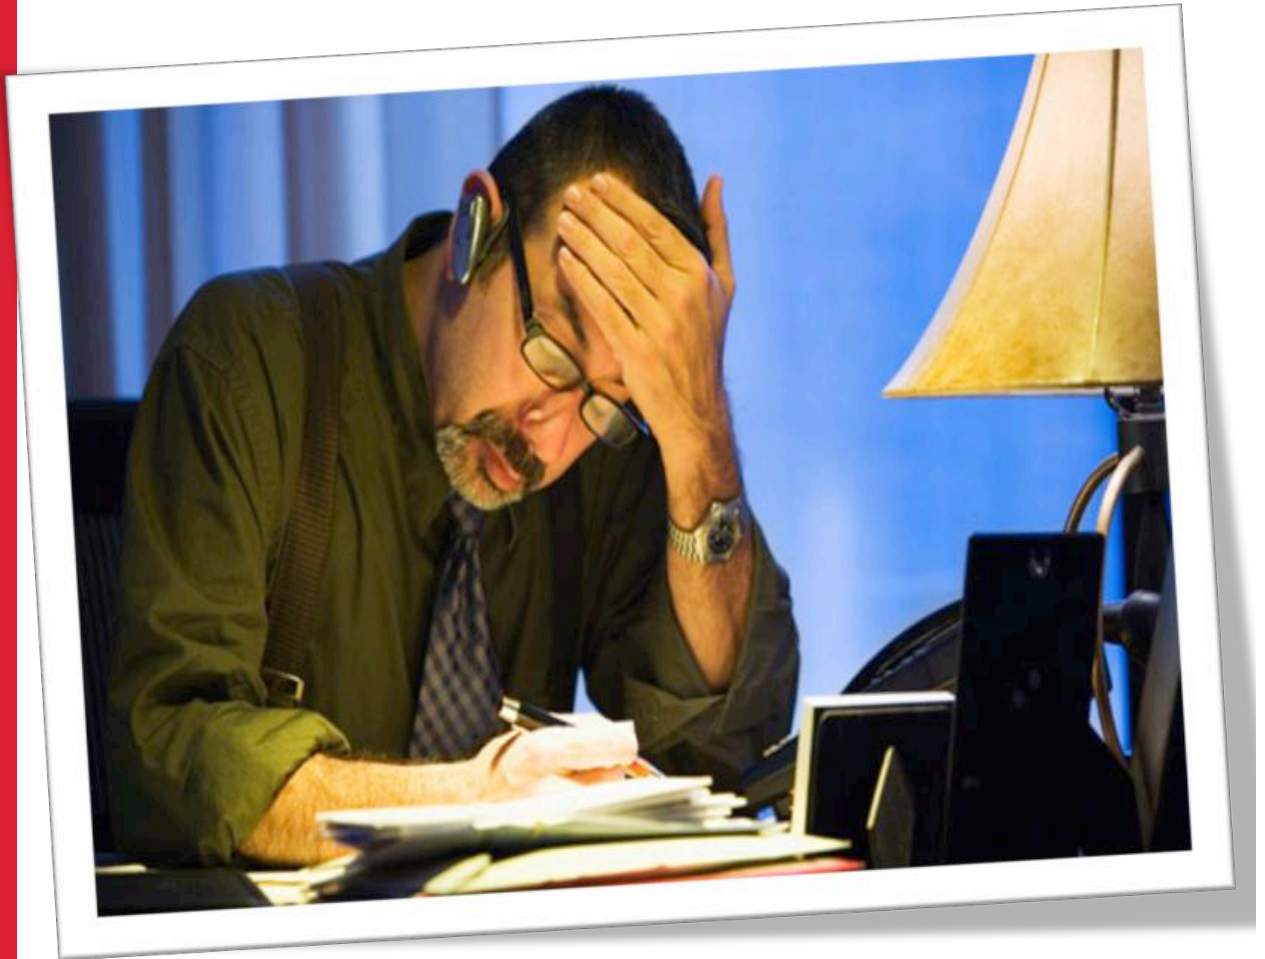

-most young people will never own their own home

-most people will find it difficult to retire without supplementing their income

Most professionals feel they can't keep working at the pace they are now!

They say even a reliable, additional income of \$2000 per month would be a comfort.

Where would you look today to:

- to earn \$75,000 - \$100,000 per year after expenses and...

- enjoy what you do?

- choose where you live?

-create a residual income
for life?

-start it with a small
investment?

-own a secure asset

-be part of a team that is
having fun... and going
places

-and then be able to sell it
or will it to your children

There is a saying, “you don’t know what you don’t know... until you know!”

UPDATE

A close-up photograph of a person's hand holding the letter 'E' of the word 'UPDATE'. The word is rendered in a white, hand-drawn, chalk-like font against a dark background. The hand is positioned on the right side of the frame, with the thumb and index finger gripping the letter 'E'. The lighting is focused on the hand and the letters, creating a strong contrast with the dark background.

There is another saying, “If you don’t find a way to earn money while you sleep... you’ll work until you die”

What I am about to share, has given thousands of people a sense of purpose, affluence, and residual incomes for life!

It's a fact that today...we are more likely to listen to those we...
Know, Like and Trust... than to advertising

Owner Expertise

The Chens follow the Philosophy of Regeneration with every product they make

There are three principals to Regeneration:

- 1) The body has the ability to be balance and self-regulate ... if it has the right raw materials
- 2) The raw materials must come from whole foods
- 3) We must take responsibility for our wellness

The Whole Chen Family brings their expertise to Sunrider

Sunrider owns one million sq ft. of state-of-the-art manufacturing facilities in the US alone

Sunrider produces over 400 proprietary, cutting edge products worldwide and 7 different product lines from beverages, foods, herbal supplements to skin-care

Sunrider's Responsibilities

- Research and development
- Manufacturing
- Packaging
- Shipping orders
- Customer Service
- FDA, Health Canada etc.
- Customs
- All Legal and Tax issues
- Paying IBOs

IBO's Responsibilities

- Establish trust and educate others
- Establish points of distribution

Sunrider doesn't use

- Retail stores
- Sales people
- Advertising

Instead... they have one warehouse per country for shipping orders and customer service...

And IBOs do the rest

This allows IBOs to build
a profitable asset...

where they don't have
the headaches of
traditional business
ownership...

and are doing something
companies can't do

Compounding your efforts

A great feature of this business, is the ability to compound your efforts

You can use your leadership skills to...

- build teams

- build globally

- benefit from any volume that is generated from your efforts directly or indirectly... for ever

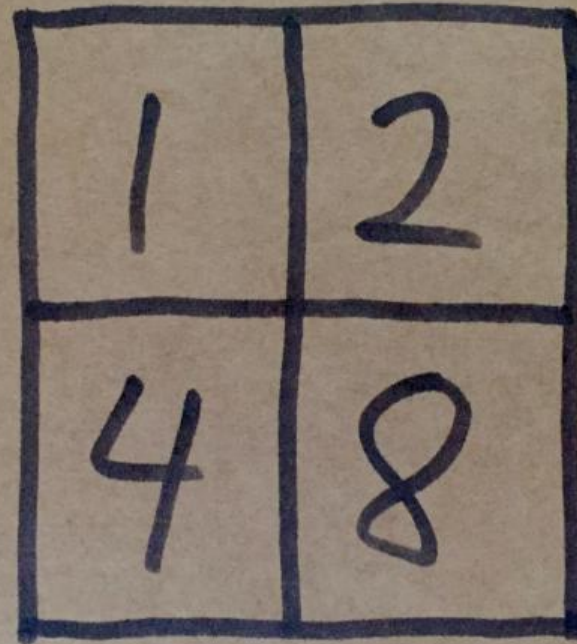

This is a year
divided into quarters

-if you started in the first
quarter

-sponsored one
business person in the
second quarter = 2

-you both sponsored 1
business people in the
third quarter = 4 and so
on

There would be 8 of you
in year one

1	2
4	8

1	2
4	8

16	32
64	128

There would be 128 business people by the end of year two

1	2
4	8

16	32
64	128

256	512
1024	2048

There would be 2048 business people by the end of year three

If we added up all the people in the quarters there would be 4095 people

$4095 \times \$100$ in volume per month = 409,500

Average payout = 7 - 9%

At 7% that would pay you about \$28,600 in income... per month

What if you earned half of that amount?

For example purposes only!

If each IBO had 5
customers...

It would add 2 million dollars
in volume per month to your
business!

At 7% that would add about

\$200,000 per month in
commissions

What if you earned 20% of that amount?

For example purposes only!

There is something for casual
business people also...

Millions of people around the world earn:

-\$100 per month

-\$250 per month

-\$500 per month

-\$1,000 per month

-\$2,500 per month

-\$5,000 per month

By sharing with a few people

A few comparisons of
other industries to
Network Distribution

-The NFL - 12 billion

-The movie industry - 88 billion

-The music industry - 15 billion

-Network Distribution -180 billion

The Network Distribution industry, pays over
70 million in commissions each year

The key to building a large business is...

- Finding an exceptional product line
- Telling others about it
- Inviting others to join you in business
- Treating it like a business
